

# Euro Grade Safes

Tested and approved by VdS to Grade 0 providing protection for up to £60,000 in valuables

INDEPENDENTLY  
TESTED BY THE VdS  
TO EN1143-1 GRADE 0

This range of graded safes are manufactured and tested to the highest standards.

Their light weight and construction make them ideal for both domestic and commercial use.

Each Euro Grade safe has been tested to ensure quality and resistance to attack. This testing and approval is signified by the issuing and mounting of the appropriate badge.

The 90mm thick door is equipped with 6 x 25mm locking bolts that locate on all 4 sides of the safes.

Both the keylock and digital combination lock provide security at the highest level. These locks are of the type used to protect valuables in excess of £250,000.

The neutral paint colour (RAL 7035) is applied in a 3 stage process giving greater resistance to everyday wear and tear.

Shelves are adjustable at 15mm intervals and completely removable.

With the door opening 180°, this gives access to every area of the safe and allows best use of the space inside.

Fixing is via twin fixing bolts (supplied) and these when used are fully recessed so they do not interfere with interior contents.

Additional models available from grades 1-5.

MODEL (RAL 7035)	EXTERNAL (H x W x D)	INTERNAL (H x W x D)	WEIGHT (approx kg)	VOLUME (litres)	LEVER ARCH FILE CAPACITY
Horizontal	380 x 500 x 460*mm	250 x 370 x 305mm	75kg	28L	3
Vertical	500 x 380 x 460*mm	370 x 250 x 305mm	75kg	28L	3

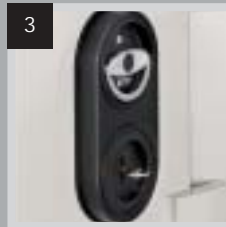

\*which excludes 25mm for hinge/handle projection
