

Secure Cash Box

for protection of cash and valuables

Choosing a product to store and protect your petty cash can be a very important decision. After all, the last thing you want to do is select a product which does not meet your needs.

With the Secure Cash Box, you can be assured that such needs will be met. Designed to store and protect cash and valuables, the Secure Cash Box is ideal at home or in any business environment. With flexibility like this, it's no surprise that the Secure Cash Box has continued to enjoy a favourable response.

Models

The Secure Cash Box is available in three sizes and three different colours.

Construction

The units are made of 1.2 mm solid steel and have a durable hinge construction.

Locking

To prevent unauthorised access, each cash box is equipped with a cylinder lock and supplied with two keys.

Additional features

All models include a removable Euro or universal coin tray. The larger models also have a removable note tray included, which means the Secure Cash Box can be used as a general storage box for other valuables. Other features include a recessed metal handle.

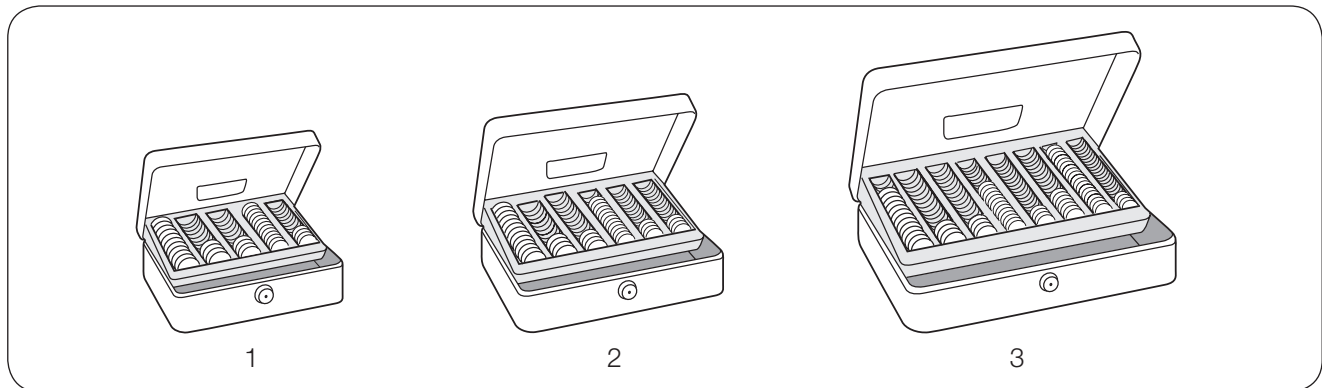

Design

The Secure Cash Box will complement your environment in terms of colour, design and size. They have a sophisticated modern look, being available in a durable blue, red or black powder coated finish.
